

**Life can be  
complicated.**

Getting your medications  
doesn't have to be.

"Genoa has been wonderful for me. The staff is so caring and it's so convenient to get my medication."

- Emily, consumer

## We're here for you.

Nobody needs to run one more errand, right? Making a separate stop to pick up medications can be a hassle. To make things easier for you, there's a pharmacy right here at this center. You can get your medicine here whenever you visit.

Because we're a full-service pharmacy, you can **fill prescriptions from any doctor**, even your primary care physician. If you need your medications and can't get here, they can be **delivered at no additional cost**.

Whenever you visit, we're happy to talk with you about what's going on with your medicine ... when to take it, how to take it and anything else you'd like to know, including questions about insurance. We can even **help you stay on track by creating handy daily dose packs**, so you'll know you're taking the right medications at the right time.

## You are not alone.

You have a team on your side, and Genoa is part of that team. When you understand more about your medication, you feel better. And that's why we're here.
